

International Efforts at Eliminating Violence Against Women in Times of War and Peace

ICMGLT Webinar– 25 Nov. 25

Legal Expert and Advocate for Survivors of Gender Based Violence

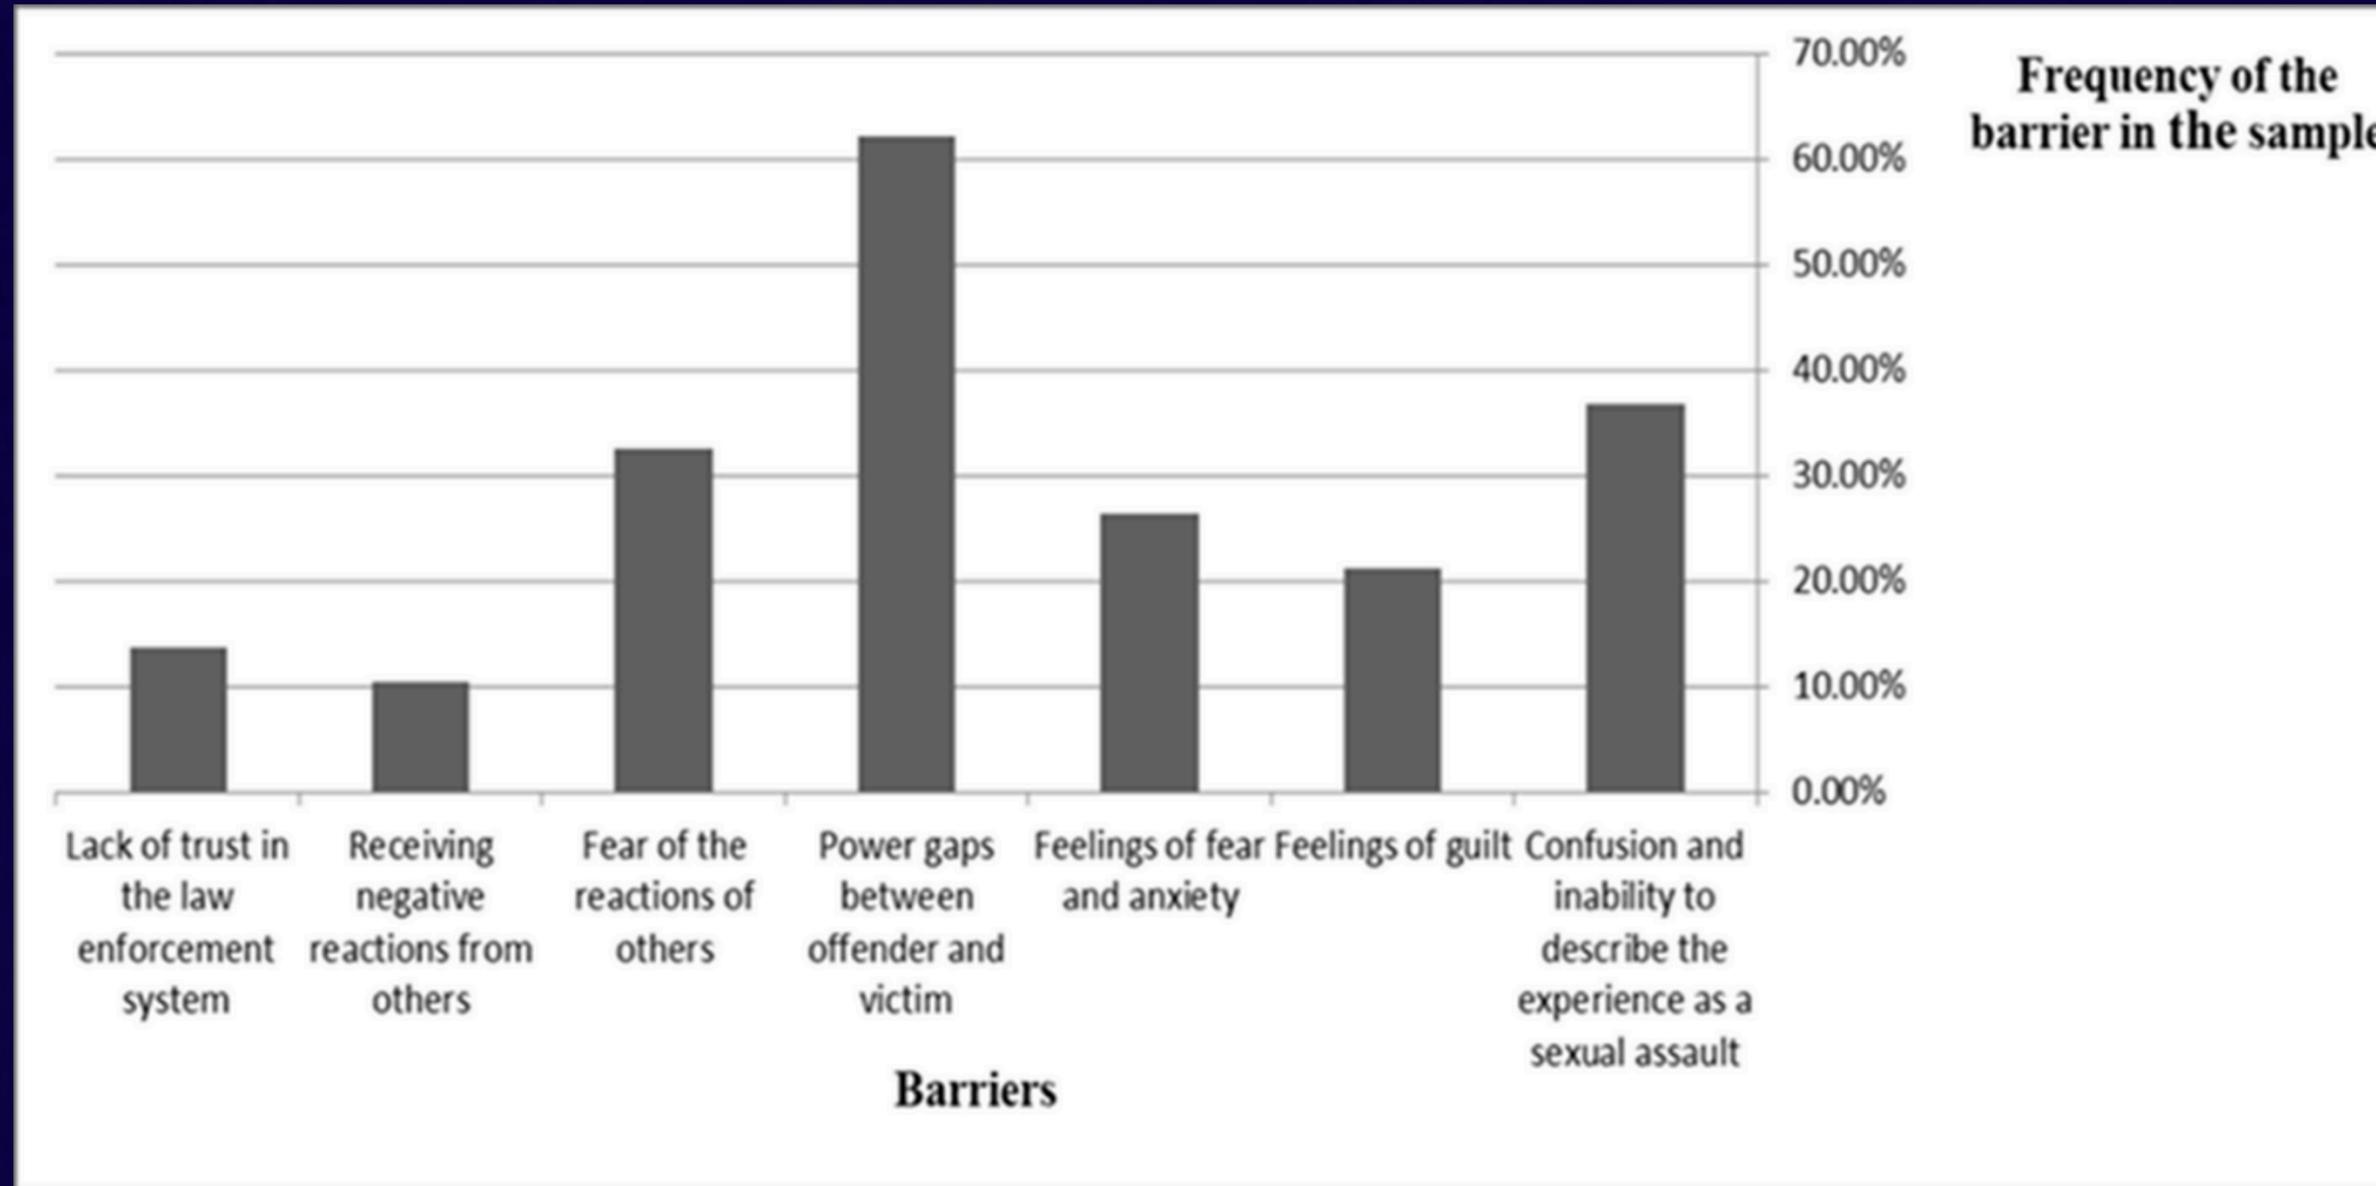

Key Characteristics of GBV in Israel

- **Domestic Violence**
- **Sexual Assault**

- 1 out of 3 women will be victims of sexual assaults in their lifetimes.; 1 out of 5 will be victim to rape.
- 1 out of 5 children will be victims of sexual assault;
- In 85% percent of the incidents– the perpetrator is known to the victim;
- Only 6% report sexual assault to the police;
- An average of 20 women are murdered each year; 2025– 34 (!!!) GBV victims;
- Most physical violence occurs within intimate or familial relationships;
- Only 25% report DM to authorities;
- Among school settings: A survey found a 45% rise in sexual abuse reports in Israeli educational institutions in 2024 compared with previous year.

#WHY I DIDN'T REPORT

WOMEN IN TIMES OF CRISIS

- **Women experience significantly greater economic harm than men;**
- **Violence against them– particularly domestic violence– increases;**
- **Due to multiple pressures and the heavy caregiving and household, responsibilities placed on women, they report higher levels of distress, anxiety, and stress compared to men.**

The Impact of War on Women of Israel

Disproportionate Exposure to Domestic & Sexual Violence
War-Related Under-Reporting & Reduced Access to Support
Heightened Economic Harm & Employment Instability
Severe Mental-Health Burden & Trauma Load
Unregulated Expansion of Civilian Firearms
Religious-Civil Legal Frictions (Rabbinical Courts)
Deep Structural Gender Inequalities
Political Under-Representation in Decision-Making
Vulnerable Populations: Periphery, Arab Society, Migrant Women

Key Strategic Pillars

***Governance and
Legislation***

***Law
enforcement
and Justice
System***

***Economic
Independence***

***Data Research
and
Transparency***
